ABOUT ME

I'm an IT professional who exploring how things work and building better solutions. I work on full-stack development, learning, and cybersecurity, and I enjoy working on projects that bring these areas together.

EDUCATION

- B.TECH IN INFORMATION TECHNOLOGY — GAYATRI VIDYA PARISHAD COLLEGE OF ENGINEERING FOR WOMEN, VISAKHAPATNAM

CGPA: 7.65

Nov 2022 – May 2026

- INTERMEDIATE (IPE) — ADITYA JUNIOR COLLEGE

Percentage: 56.2%

Jun 2020 – Aug 2022

- CBSE SECONDARY SCHOOL — AKSHARA SCHOOL

Percentage: 69.4%

Jun 2020

PROJECTS

Hostel Management System

- Developed a hostel management web application using Java, Spring MVC, Maven, JavaScript, and MySQL to manage hostel operations and user records.
- Implemented separate user/administrator access, room and occupancy management, student information handling, and a responsive interface for desktop and mobile.

SmartTV

- Worked on Channels Testing, performing functional testing and validating application behavior.
- Identified issues, documented test results, and supported backend testing using Python and MySQL.

WORK EXPERIENCE

Training Program — KVK Technoid,Hyderbad

2026-NOW

- Completed practical training in software development with hands-on exposure to Java, Python, MySQL, web development, and application development workflows.
- Gained experience in Spring MVC and Maven-based project development, along with UI/UX design and testing practices.

Intern — Tekchant, Bangalore

Mar - May2026

- Worked on Python and MySQL-based projects for monitoring systems, testing functionalities, and generating real-time alerts and updates during failures or abnormal activities.
- Assisted in identifying system issues, automating status tracking, and improving operational reliability through backend testing and database management.

Cybersecurity Intern — ONGC, Kakinada

Jun – Jul 2025

- Applied fundamentals of network security, cryptography, and threat analysis.
- Assisted in risk assessment and identification of system vulnerabilities.

SKILLS

- Languages & Frameworks: Java, Python, JavaScript, Spring MVC, Maven
 - Data & ML: MySQL, Machine Learning, YOLOv8 (fundamentals)
 - Other Tools: Network Security, Figma
 - Core Strengths: Problem Solving, Critical Thinking, Communication, Leadership, Team Collaboration, Adaptability
-

ACHIEVEMENT

- Wonder Book of Records — Kuchipudi
 - Secretary, Personality Development Club — Managed event planning, coordinated team members, and conducted skill-development sessions focused on communication, confidence, and leadership.
-

CERTIFICATIONS

- Deloitte — Data Analytics Job Simulation
 - Microsoft — Fabric Data Warehouse
 - Tata — Data Visualisation: Empowering Business with Effective Insights
 - ONGC — IT Networking and Communication
 - British Council — APTIS ESOL English Proficiency (B2)
 - Tekchant — Product Development Department
-
