

KAKARALA SRI LAKSHMI MADALASA

Hyderabad, Telangana | +91 9493312434 | madalasabhardwaj1@gmail.com

PROFILE

Motivated IT engineering student with hands-on experience in cybersecurity fundamentals, machine learning, and full-stack development. Quick learner with strong problem-solving skills, seeking a challenging entry-level IT or software engineering role to apply technical knowledge and contribute to engineering excellence.

EDUCATION

B.Tech in Information Technology — Gayatri Vidya Parishad College of Engineering for Women, Visakhapatnam CGPA: 7.65 (through 8th semester)	Nov 2022 – May 2026
Intermediate (IPE) — Aditya Junior College Percentage: 56.2%	Jun 2020 – Aug 2022
CBSE Secondary School — Akshara School, Kakinada Percentage: 69.4%	Jun 2020

WORK EXPERIENCE

Cybersecurity Intern — ONGC, Kakinada • Applied fundamentals of network security, cryptography, and threat analysis. • Assisted in risk assessment and identification of system vulnerabilities.	Jun 2025 – Jul 2025
Intern — Tekchant, Bangalore • Worked on Python and MySQL-based projects for monitoring systems, testing functionalities, and generating real-time alerts and updates during failures or abnormal activities. • Assisted in identifying system issues, automating status tracking, and improving operational reliability through backend testing and database management.	Mar 2026 – May 2026
Training Program — KVK Technoid • Completed practical training in software development with hands-on exposure to Java, Python, MySQL, web development, and application development workflows. • Gained experience in Spring MVC and Maven-based project development, along with UI/UX design and testing practices.	2026

PROJECTS

Unified Security Evaluation of LLMs Against Prompt Injection and Prompt Leakage Attacks • Developing a structured security evaluation framework for large language models to detect prompt injection, SQL-style attacks, and prompt leakage, based on OWASP Top 10 (2025) vulnerabilities. • Implementing DEFCON-based severity scoring and statistical/visual security metrics to quantify attack impact and assess model robustness against sensitive information leakage.	Jan 2026 – Apr 2026
Hostel Management System • Developed a hostel management web application using Java, Spring MVC, Maven, JavaScript, and MySQL to manage hostel operations and user records. • Implemented separate user/administrator access, room and occupancy management, student information handling, and a responsive interface for desktop and mobile.	2026

SKILLS

Languages & Frameworks: Java, Python, JavaScript, Spring MVC, Maven

Data & ML: MySQL, Machine Learning, YOLOv8 (fundamentals)

Other Tools: Network Security, Figma

Core Strengths: Problem Solving, Critical Thinking, Communication, Leadership, Team Collaboration, Adaptability

CERTIFICATIONS

- Deloitte — Data Analytics Job Simulation
- Microsoft — Fabric Data Warehouse
- Tata — Data Visualisation: Empowering Business with Effective Insights
- ONGC — IT Networking and Communication
- British Council — APTIS ESOL English Proficiency (B2)
- Tekchant — Product Development Department

ACHIEVEMENTS

- Wonder Book of Records — Kuchipudi
- Secretary, Personality Development Club — managed event planning, coordinated team members, and conducted skill-development sessions to foster confidence, communication, and leadership among students.

LANGUAGES

English, Hindi, Telugu, Tamil
